

Lifesaving solutions

LifeGuardXL ensures oversized medical shipments receive maximum care

Your solution for:

- Cell and gene therapies
- Critical pharma
- Vaccines

Your benefits

- Highest boarding priority
- Monitoring and support from LifeGuard desk
- Stations proactively notified of LifeGuardXL shipment
- Handling by specially-trained staff
- Access to our global network and more than 50 U.S. cities
- Extra shipment visibility with clearly identifiable purple LifeGuard tape

When your most critical shipments exceed 100 lbs., LifeGuardXL is there to connect your cell therapy and other vital pharma shipments to patients across the world. Booked with the highest boarding priority, LifeGuardXL shipments receive oversight from origin to destination.

Service and oversight

Count on LifeGuardXL to deliver your important medical shipments when they must move, but don't meet the weight or size requirements of standard LifeGuard or QuickPak. Open to shipments greater than 45 kgs., LifeGuardXL puts our entire mainline flight network in reach for enhanced service and oversight.

Just like our standard LifeGuard service, LifeGuardXL shipments have the highest boarding priority so that your critical shipments can safely get to the patients who need them. Meanwhile, our LifeGuard support desk proactively monitors and alerts all stations en route, so that LifeGuardXL shipments still receive the highest care and attention.

The result is peace of mind for shipments that don't fit standard small package dimensions.
