UAPremium

When your high priority shipments exceed 100 lbs. (45 kgs.), UAPremium is there to transport your shipments across the world quickly. Booked with higher boarding priority, UAPremium shipments receive additional oversight from origin to destination.

Service and oversight

Count on UAPremium to deliver your important shipments when they must move, but don't meet the weight or size requirements of QuickPak and traditional EXP service just isn't enough. Open to shipments greater than 100 lbs. (45 kgs.), UAPremium puts our entire mainline flight network in reach for enhanced service and oversight.

UAPremium shipments have the highest boarding priority for non-lifesaving shipments so that your important shipments can safely get to where they need to go. Meanwhile, our dedicated support desk proactively monitors UAPremium shipments so they receive expert care and attention.

Comprehensive network

With more than 50 UAPremium stations located in a diverse range of U.S. cities, your shipments get to markets across the world quickly and safely. For overseas destinations, benefit from our global flight network for even greater reach.
